Date of birth: 5 Feb 1998 | Nationality: Singaporean

EDUCATION

Harbor State University | B.B.A. in Finance | Metro City, USA | Sep 2016 - May 2020

EXPERIENCE

Crescent Bank | Credit Analyst | Metro City, USA | Jul 2020 - Dec 2022

- Hedged the bank's interest-rate risk on its fixed-rate bond holdings by buying more fixed-rate bonds of the same duration.
- Reviewed 3 years of declined applications; my findings changed two ratio thresholds and raised approvals from 41% to 48% with no rise in early defaults.
- Writes the covenant-monitoring checklist for the portfolio, cutting missed covenant tests from 7 to 1 a year.
- Built a spreading template for borrower financials that cut each credit memo from 6 hours to 3.

Stonebridge Manufacturing | Financial Analyst | Metro City, USA | Jan 2023 - Jun 2025

- Built the rolling 18-month cash-flow forecast for a USD 600M manufacturer, keeping monthly forecast error under 4% and letting treasury pay down USD 40M of revolver debt early.
- Cut the monthly close from 8 working days to 5 by automating 30 reconciliations and intercompany eliminations.
- Modeled the capital plan for 12 plant projects in a shared NPV template, so every request used the same discount rate and payback rules.
- Mapping 600 general-ledger accounts to a new chart of accounts, rebuilding the allocation rules and testing them against two prior closes, cut manual journal entries from 350 to 90 a month.
- Valued the acquisition target by discounting its free cash flow to equity at the company's weighted average cost of capital.
- Trained 5 plant controllers on the new budgeting template and wrote its user guide.

PROJECTS

Regional Utility Valuation | Independent Project | Excel | Nov 2024 - Present

- Valued a listed regional utility with a 10-year DCF and a comparable-company check, landing within 6% of the market price.
- Showed the share value fell from USD 50 to USD 40, a 25% drop, when the discount rate rose by 1 point.
- Raised the model's forecast accuracy by 12% across 10 years, from 70% to 82%, by adding rate-case timing.

Student Investment Fund | Analyst, Team of 6 | Excel | Sep 2018 - May 2019

- Supported the FP&A team with financial reporting and analysis.
- Rebuilt the fund's performance report to show returns against its benchmark, which the committee used at every meeting.
- Wrote onboarding notes on the fund's models for new analysts.

SKILLS

Tools: Excel

Methods: financial modeling, DCF valuation, forecasting, credit analysis
