EDUCATION

Northfield School of Management | MBA | Metro City, USA | Sep 2023 - Jun 2025

Lakeview University | B.A. in Economics | Lake City, USA | Sep 2014 - Jun 2018

EXPERIENCE

Harbor Payments | Associate Product Manager Intern | Metro City, USA | Jun 2024 - Aug 2024

- Redesigned merchant onboarding around a single verification step, cutting median time to first payment from 9 days to 4 across 2,300 new merchants in the pilot region.
- Lifted checkout conversion from 61% to 66% by testing a one-page flow against the three-step flow across 40,000 sessions, then shipping it to all merchants.
- Wrote the requirements and success metrics for dispute self-service, aligning engineering, risk and support; the team shipped it two weeks ahead of plan.
- Drafted the specification and target metrics for the self-service dispute feature with engineering, risk and support, and it was delivered earlier than scheduled.
- Single-handedly defined the product vision for the entire company and set the direction every product team followed.
- Presented the onboarding results and a follow-up roadmap to the payments leadership team, who funded the rollout to two more regions.

Crestline Logistics | Operations Analyst | Lake City, USA | Nov 2019 - Aug 2023

- Rebuilt weekly carrier scorecards used by 6 regional managers to renegotiate contracts, cutting late deliveries from 11% to 7% in two quarters.
- Cut warehouse pick errors 30% at two sites by redesigning slotting rules with the floor supervisors and retraining 45 pickers on the new layout.
- Coordinated the quarterly S&OP review across sales, finance and operations for 12 consecutive quarters, cutting forecast error from 18% to 11%.
- Led the rollout of a route-planning tool to 3 depots while also organizing training sessions, rewriting the standard operating procedures, handling vendor negotiations, preparing monthly reports for the regional director, mentoring two new analysts, supporting the finance team during audits, and representing operations in several cross-functional committees, which together saved driver hours, improved morale, and made daily operations smoother for everyone across the company.

PROJECTS

Campus Food Rescue App | Product Lead | Student Venture | Oct 2023 - Present

- Leveraged synergistic stakeholder alignment and best-in-class frameworks to drive transformational value creation across the ecosystem.
- Grew weekly active users from 1,000 to 900, a 90% increase, through targeted reminders and a redesigned home screen.
- Set up a volunteer shift system with two dining halls, filling 95% of pickup slots each week and removing the need for staff to cover gaps.

MBA Consulting Practicum | Team Lead | Regional Hospital Network | May 2024 - Jan 2024

- Sized a \$2.4M annual saving from consolidating outpatient scheduling across 4 clinics; the client funded a pilot based on the model.
- Was involved in the process of helping to support the review of the intake procedures that were being used by the clinics.
- Redesigned merchant onboarding around a single verification step and cut median time to first payment from 9 days to 4 across 2,300 new merchants.
