Date of birth: 5 Feb 1998 | Nationality: Singaporean

EDUCATION

Harbor State University | B.B.A. in Finance | Metro City, USA | Sep 2016 - May 2020

EXPERIENCE

Lakeside Golf Club | Caddie | Metro City, USA | Aug 2025 - Present

- Caddied about 5 rounds a week, carrying bags and reading greens for members.
- Helped the pro shop run the weekend junior tournament.

Stonebridge Manufacturing | Financial Analyst | Metro City, USA | Jan 2023 - Jun 2025

- Improved close efficiency by 40% by automating reconciliations and intercompany eliminations.
- Modeled the capital plan for 12 plant projects in a shared NPV template, so every request used the same discount rate and payback rules.
- Wrote the variance commentary for the monthly board pack, explaining each line more than 5% off budget.
- Valued the acquisition target by discounting its free cash flow to equity at the company's weighted average cost of capital.
- Reported a 45% group EBITDA margin by adding the EBITDA margins of the three business units.
- Built the rolling 18-month cash-flow forecast for a USD 600M manufacturer, keeping monthly forecast error under 4% and letting treasury pay down USD 40M of revolver debt early.

Crescent Bank | Credit Analyst | Metro City, USA | Jul 2020 - Dec 2022

- Underwrote 60 small-business loans worth USD 45M, and none of the approved loans defaulted in their first two years.
- Reviewed 3 years of declined applications; my findings changed two ratio thresholds and raised approvals from 41% to 48% with no rise in early defaults.
- Wrote the covenant-monitoring checklist for the portfolio, cutting missed covenant tests from 7 to 1 a year.
- Built a spreading template for borrower financials that cut each credit memo from 6 hours to 3.

PROJECTS

Regional Utility Valuation | Independent Project | Excel | Nov 2024 - Present

- Valued a listed regional utility with a 10-year DCF and a comparable-company check, landing within 6% of the market price.
- Tested the valuation's sensitivity: a 1-point change in the discount rate moved the share value from USD 52 to USD 44.
- Shared the model and a two-page note with the university investment club, which used it in its spring pitch.

Student Investment Fund | Analyst, Team of 6 | Excel | Sep 2018 - May 2019

- Supported the FP&A team with financial reporting and analysis.
- Rebuilt the fund's performance report to show returns against its benchmark, which the committee used at every meeting.
- Built an 18-month cash forecast for a USD 600M business, holding error to about 4% and freeing USD 40M to repay debt early.

SKILLS

Tools: Excel

Methods: financial modeling, DCF valuation, forecasting, credit analysis
